

Integrated Business Partner for Tight Oil Development

100 kboepd from Tight Oil Field | \$2-3 Bn Business Opportunity | Full-Scale Tight Oil Development

Vedanta Oil and Gas Limited (VOGL) is **India's leading private upstream company** is committed **to invest \$5 Bn in its brownfield assets** with the vision of securing 50% of India's domestic energy needs and having presence across country with **43 blocks** spanning across Onshore, Offshore and Deepwater.

VOGL immediate focus is to monetise its vast **Tight Oil resources of 1.5 Billion barrels in its three large fields** namely **Aishwarya Barmer Hill (ABH), Mangala Barmer Hill (MBH) and Vijay & Vandana (V&V)**. Currently, with ~80 producing wells in Tight Oil, we are producing 8000 barrels per day. These fields have **potential to scale-up production to 100,000 barrels per day, creating a \$ 2-3 Billion business opportunity**.

VOGL is seeking a Partner for Integrated Tight Oil Development with expertise in developing Tight Oil Fields. The selected partner will develop the overall conceptual design and deliver full-scale development, including subsurface assurance, drilling, hydraulic fracturing, and facilities.

The Tight Oil asset is currently under operations with a talented workforce and capable business partners/suppliers. Interested parties are invited to propose an integrated development model incorporating management, rig, technology, and execution capabilities to enhance performance and maximise production and recovery.

Partners may participate independently or form a consortium for integrated delivery of the project. Business Partner will have full management support for successful execution of the project.

The Ask

1. Safety, planning and operational governance
2. **Field Assessment & Development, Assurance of R&R and Production** – full-scale Tight Oil development
3. **Subsurface, Drilling, Fracturing and Facilities**
4. Procurement and management of equipment and materials
5. **Early mobilisation of Rigs** and LLIs

The Ideal Partner

- **Track record** of similar Tight Oil fields development and large-scale project delivery
- **Strong technical capability** across Subsurface / Drilling / Fracturing / Facilities
- **Rapid mobilisation** of best-in-class Rigs and frac fleets
- **Technology-led and AI/data-driven approach** to subsurface, fracturing and production

Interested partners are invited to share your credentials through the form provided or by reaching us at ceovogl.outreach@cairnindia.com. All responses are treated in complete confidence.

Timeline: 14 days from the date of this notice.
