Our Goal	...influences our strategic direction	...which we deliver through our targeted initiatives/ plan	...leading to an inspiring impact
Net Zero Carbon by 2030 	**Renewable energy sourcing of 25 MW by FY 2025 and 70 MW by FY 2030** Renewable energy integration through Power Delivery Agreement (PDA), solar rooftops, and streetlights. **Planting 2 million trees by 2030** Mass plantation of native/ indigenous species to support local biodiversity and ecosystem services	**Net Zero Strategy** • Renewable Energy • Flare Gas Reduction • Electrification and Energy Efficiency • Electric Mobility • Setting up of CCUS • Carbon Offset through Carbon Sink • Innovative/ New Technologies **Climate Risk Assessment** • Physical and Transition Risk Assessment • Climate Adaptation Plan	• **11%** reduction in GHG emission in last three years • **11%** reduction in scope 3 emissions in last three years • **~29%** reduction in Non-Renewable Energy (FY 2022) • **0** incidents environmental violations or non-compliance • **INR 3.2 Crore** allocated & spent on R&D projects aimed at enhancing the environmental performance of the products • **INR 34.5 Crore** invested in decarbonisation initiatives
